Subject: [External] New Heights AR Revisions

Meaghan,

I just realized that I forgot to email the 578's to you for the revisions I requested for New Heights policies.

New Heights Farm I - 1139524 - Allegan County and Ottawa Counties - Fields that need to be removed are not listed on the 578's

New Heights Farm II - 1139526 - Cass and VanBuren Counties - Field in Cass County that needs to be removed is not listed on the 578 and the field that needs to be changed to IRR is listed on page 13 of the VanBuren County 578.

I'm sorry I forgot to do that when I got back to my office this week. Please let me know when these have been done.

Thank you,

Chris

Subject: RE: Document Subpoena to Great American re: Ceres/NHF Suit

Importance: High

Ron and Jamie,

We learned this morning that there are a few claims-related documents which were not in Great American's Claims File Management System (CFMS) yet, but which were in an "E-claims" document preparation system from which they would have been finalized and transferred into the CFMS at some point, presumably once the government's investigation concludes and action on the claims resumes. The documents reflect the adjuster's compilation of data from documentation already in the produced claims file materials (tickets, load records, bin measures), with corrections for moisture and test weight, and the adjuster's attempts to allocate the production out to the various units using the production records provided. Some may be in draft form. Technically they aren't in the claims file yet in their current form, but we expect they are things you will want to see and ask about.

We will Bates-number and produce them to you ASAP (by noon, I hope), but I wanted to let you know right away since this might affect your deposition preparations.

Dear NEW HEIGHTS FARM I, LLC:

We have been notified that you have a crop/county claim that may exceed \$200,000. When a crop/county claim exceeds this threshold, the United States Department of Agriculture's (USDA) Risk Management Agency (RMA) requires all companies to perform a three-year Actual Production History (APH) Review and Claim Field Review. Because an APH Review may affect your claim amount, it must be completed prior to payment of your claim.

Our goal during this process is to complete your review timely and properly. To help us achieve this goal, we need your help. Please start collecting the needed documentation from your previous three years and if you have already started this process here are some key reminders. The following list shows a few examples of hard copy documentation that may be needed dependent upon the final disposition of your crop: settlement sheets for sold production, daily records of fed production, measurements from farm stored production, and loss paperwork.

We want to provide you with prompt claim service and if you have any questions, we will be prepared to answer them when our reviewer contacts you.

Thank you for insuring with Great American Insurance Companies, we appreciate your business.

Sincerely,

Great American Insurance Companies
